NOTA

Il presente listino annulla e sostituisce tutti i precedenti.

I prezzi sono espressi in Euro (€) e non sono comprensivi di I.V.A.

I prezzi degli elementi riportati non comprendono il top e l'alzatina.

La PG Pasquinelli si riserva la facoltà di apportare modifiche al prodotto senza preavviso e declina ogni responsabilità per eventuali inesattezze ed errori presenti sul listino; qualora si verificano repentini aumenti dei costi della materia prima si riserva inoltre la facoltà di apportare modifiche ai prezzi.

Le misure di tutti gli elementi più avanti descritti sono espresse in centimetri.

Per la formulazione dell'ordine è indispensabile utilizzare la copia commissione PG Pasquinelli, indicando per ogni elemento desiderato, il codice riportato a listino specificando chiaramente varianti, colori, finiture ed ogni altra informazione necessaria ad una corretta e precisa interpretazione dell'ordine. Gli elementi speciali vanno indicati chiaramente. E' anche indispensabile allegare sempre il disegno della composizione desiderata.

TUTTE LE FORNITURE S'INTENDONO EFFETTUATE SECONDO LE CONDIZIONI DI VENDITA SOTTO RIPORTATE

TRASPORTO

La merce viaggia a rischio e pericolo di chi commissiona il trasporto fino a sponda camion. Al momento dello scarico e/o della presa in consegna della merce, il destinatario è tenuto a controllare la corrispondenza dei numeri dei colli ricevuti con quelli indicati nei documenti di trasporto e a verificare l'integrità dell'imballo segnalando immediatamente per iscritto anomalie o mancanze. In difetto di segnalazione, la PG Pasquinelli potrà, a sua discrezione, non accogliere contestazioni avvenute successivamente.

TEMPI DI CONSEGNA

I tempi di consegna riportati nel presente listino assumono per la PG Pasquinelli valore puramente indicativo e non vincolante in quanto subordinati al periodo, alle esigenze produttive ed al tipo di prodotto richiesto. Per tutti i prodotti su misura o speciali ci si deve attenere a quanto indicato all'interno del listino. Eventuali ritardi o sospensioni parziali o totali di consegna non danno diritto a risarcimenti danni diretti o indiretti né all'annullamento della commissione che potrà avvenire solo per accordo tra le parti. Per eventuali modifiche a prodotti in corso di produzione, se possibili, la ditta non si ritiene vincolata a mantenere i tempi di consegna e prima di procedere vi sottoporrà per approvazione i costi extra da aggiungere. Le spese di deposito della merce consegnataVi presso spedizionieri, depositi, ecc. come da Vostra richiesta sono a totale Vostro carico (salvo accordi scritti ed accettati tra le parti) e la PG Pasquinelli declina ogni responsabilità dell'integrità del prodotto, in quanto viene maneggiato da personale non esperto. Ordini con consegna da Voi richiesti tramite corrieri espresso sono con spese a Vostro carico, e la PG Pasquinelli ne declina la totale responsabilità dell'integrità del prodotto consegnatoVi dagli stessi.

Valore minimo (di listino) ordini per consegna franco destino:

Per consegne di valore inferiore a Euro 516,00 Vi verrà addebitata la somma di Euro 51,64 a titolo di contributo spese di trasporto e di gestione (altrimenti la consegna sarà effettuata con un ordine successivo, sempre superando il valore minimo).

SOSTITUZIONE IN GARANZIA

La PG Pasquinelli garantisce la sostituzione gratuita della merce nei casi seguenti:

- danneggiamenti alla merce per non integrità dell'imballo
- difettosità derivanti da anomalie del processo produttivo

Le contestazioni, con richiesta di sostituzione devono avvenire per iscritto (consigliamo di utilizzare il modulo reclami e richieste di sostituzione stampato a fine listino) entro 15 giorni dalla data di consegna della merce e devono riportare l'elenco preciso dei pezzi richiesti in sostituzione, la descrizione dell'anomalia riscontrata ed il riferimento di consegna. La consegna delle merce richiesta in sostituzione avverrà nel minor tempo possibile (entro 10 giorni lavorativi). La ditta si riserva in ogni caso di effettuare entro 30 giorni dalla data di richiesta di sostituzione, accertamenti sulla merce contestata tramite un proprio tecnico o persona di fiducia. Trascorso tale termine, la merce oggetto di contestazione per la quale non sia economicamente conveniente il ritiro, resterà a disposizione dell'acquirente per gli usi che riterrà opportuno fare. In mancanza di ricevimento di contestazione nei termini previsti, la merce consegnata si intende in ogni caso accettata e dovrà essere pagata secondo le modalità e le scadenze accordate. Ogni ulteriore consegna costituirà una nuova vendita. Le eventuali spese vive sostenute per provvedere alla sostituzione non sono da ritenersi a carico di PG Pasquinelli.

NOSTRI PRODOTTI – CONFORMITÀ AL CAMPIONE

La conformità al campione, sia alla prima che alle successive forniture, non deve intendersi in senso tassativo in quanto oltre a sussistere margini di tolleranza per i colori, i materiali e le dimensioni, la PG Pasquinelli si riserva la facoltà, qualora lo ritenesse utile al miglioramento del prodotto, di apportare modifiche alla produzione. Per campione si intende sia il materiale realizzato e distribuito per far conoscere il prodotto PG Pasquinelli (cataloghi, listini, campionari) sia le cucine in esposizione.

ELETTRODOMESTICI ED ACCESSORI – CONFORMITÀ AL CAMPIONE

La conformità al campione relativamente alle apparecchiature elettroniche e agli accessori non è vincolante per la PG Pasquinelli in quanto non da essa prodotti. PG Pasquinelli ha per la gamma degli elettrodomestici fornitori primari che possono assicurare il rispetto sostanziale delle caratteristiche qualitative e funzionali dei prodotti. Per gli elettrodomestici non più commercializzati dalle case produttrici, la PG Pasquinelli si riserva, senza obbligo di preavviso, di consegnare l'articolo fino ad esaurimento scorte. In caso di irreperibilità del prodotto richiesto verrà consegnato l'elettrodomestico con sigla aggiornata corrispondente.

RESPONSABILITÀ PRODOTTO

La PG Pasquinelli risponde a norma di legge solo per gli articoli da essa prodotti e declina ogni responsabilità nei casi di cattiva od errata installazione, uso improprio e cattiva manutenzione del prodotto. Nel caso di eventuali difetti o danni causati da elettrodomestici, il committente farà valere i certificati di garanzia alle case costruttrici.

PAGAMENTI

Le condizioni di pagamento sono quelle stabilite dalla PG Pasquinelli. nel corso del rapporto possono essere modificate a seguito di accordi scritti ed accettati tra le parti. La PG Pasquinelli si riserva la facoltà di modificare le condizioni di pagamento, anche senza preavviso, qualora ne ravveda la necessità di carattere finanziario e/o tutela del credito. Il ritardo di pagamento autorizza la PG Pasquinelli a chiedere l'integrale pagamento con addebito degli interessi di mora applicati al tasso vigente. La merce consegnata rimane di proprietà della PG Pasquinelli fino a pagamento totale da parte del committente. A sua volta la PG Pasquinelli ha la facoltà di ritirarla nel caso in cui non venisse effettuato il saldo totale addebitando al cliente i costi relativi. Si riconoscono validi solo i pagamenti effettuati direttamente alla PG Pasquinelli e/o a incaricati muniti di regolare mandato. Il rilascio di ricevute di pagamento non costituisce in alcun caso quietanza.

RESI

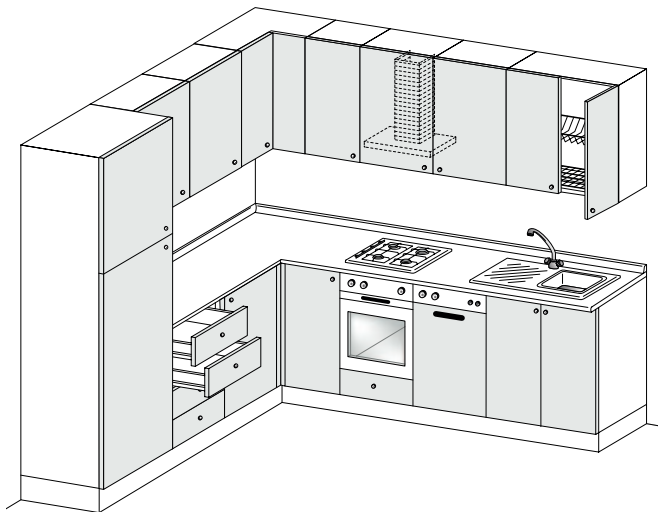

Non si accettano resi di merce se non autorizzati dalla PG Pasquinelli. Eventuali resi di merce non autorizzati non saranno accreditati. In ogni caso, l'accredito della merce resa avverrà con addebito delle spese di trasporto e sarà convalidato dopo il controllo e la verifica dello stato della merce stessa. Non verranno accreditati: piani, zoccoli, alzatine e cornici. Non potranno essere accreditati mobili su misura, scocche con forature diverse dalla produzione normale, ante laccate ed articoli personalizzati, salvo contrari accordi specifici e scritti tra le parti. I resi accettati dalla ditta saranno ritirati alla prima consegna effettuata dopo l'accettazione del ritiro e devono essere consegnati alla costruttrice integri, imballati ed accompagnati da regolare documento di trasporto. Gli accrediti della merce resa verranno conteggiati, secondo le specifiche sopra elencate, ed il relativo importo sarà detratto nella prima fattura emessa dalla PG Pasquinelli al cliente. Non saranno accettate altre soluzioni che ogni singolo cliente intenda proporre o attuare per le sue esclusive esigenze amministrative.

FORO COMPETENTE

Ad ogni effetto legale e per qualsiasi contestazione è competente il Foro di Lucca (Italia)

Informazioni tecniche

/ Technical information

STRUTTURA:

di spessore 18 mm. Realizzata con pannelli nobilitati ecologici con bordo in spessore in classe E1 rivestiti con carte melaminiche tessutate resistenti alle abrasioni e di facile pulizia.

RIPIANI:

di serie con reggipiani.

CASSETTI A CHIUSURA AMMORTIZZATA:

sono disponibili di serie in tutti i mobili; le guide sono ad estrazione totale con chiusura ammortizzata. Portata 35 kg per i cassetti e 65kg per i cestoni.

BASI PER INCASSO LAVELLO:

di serie con fondo rivestito in alluminio.

COLONNE FRIGO:

dotate di fondo in ABS rinforzato.

PIEDINI:

in materiale plastico variabile da un'altezza di 10cm ad una altezza di 15cm con regolazione di 2cm in altezza. il piedino di 18cm è disponibile con sovrapprezzo (vedi paragrafo accessori)

ZOCCOLI:

variabile da altezza 10cm a altezza 15cm. In materiale plastico rivestito in alluminio anodizzato e con guarnizione per un'adeguata aderenza al pavimento. Disponibili con sovrapprezzo anche in altezza 18 cm e colori laccati.

ATTACCAGLIE PENSILI:

regolabili dall'interno del mobile in altezza e profondità.

BARRE REGGIPENSILI:

vengono fornite gratuitamente con i pensili.

CERNIERE:

ad aggancio automatico e ammortizzato di serie, regolabili nelle 3 direzioni, con apertura a 110 gradi.

ALZATINA:

in ABS rivestito nelle finiture dei top o in alluminio.

VUOTO SANITARIO:

tutte le basi e le colonne hanno lo schienale che rientra di 6,4 cm. per agevolare il posizionamento di eventuali cavi tubi etc.

FORNI:

è sempre consigliato l'utilizzo di forni a raffreddamento forzato tangenziale. Il forno non viene fornito già montato nella base ma, per la sua stessa integrità, consegnato nell'imballo originale.

COLONNE PROFONDITA' RIDOTTA:

è sempre consigliato il fissaggio a muro.

GOLE:

le gole sono in alluminio.

ALTEZZA MINIMA TRA PIANO DI COTTURA E MOBILE CAPPA:

l'altezza consigliata dipende dal tipo di elettrodomestico quindi, in fase di installazione e montaggio fare riferimento a quanto prescritto dal produttore dell'elettrodomestico stesso.

STRUCTURE

th. 18 mm. Made with ecological melamine panels with edge in spessore in classe E1 rivestiti con carte melaminiche resistenti alle abrasioni e di facile pulizia. I fianchi sono provvisti di fori di unione non passanti.

SHELVES:

as standard with clip shelf brackets.

DRAWERS WITH SOFT-CLOSE MECHANISM

available as standard in all units; full extraction guides with soft-close mechanism. Capacity 25 kg.

BASE UNITS FOR BUILT-IN SINK

as standard with aluminium coated bottom.

FRIDGE TALL UNITS:

fitted with bottom in reinforced ABS.

FEET:

in plastic material H. 11 cm with quick-mount and adjustable in height up to 13 cm; as standard on base units and tall units. Available with surcharge also with H. 15 cm.

PLINTHS:

as standard with H. 12 cm. In coated plastic material and with gasket for floor grip. Available also with H. 15 cm.

WALL UNIT BRACKETS:

can be adjusted in height and depth from the inside of the unit.

SHELF BARS:

provided free with wall units.

HINGES:

with automatic engaging, three-way adjustable hinges, with 110° opening (also 180°, if technically possible, with surcharge) for all elements, and standard 180° for corner base units and plate rack units. On demand, soft-closing hinges are also available, with surcharge.

UPSTAND:

in coated ABS in the same finish as tops or in aluminium.

PIPE RECESS:

all base units and tall units have a 5.2 cm recessed back panel for pipes, etc.

OVENS:

we recommend using ovens with forced tangential cooling. The oven is supplied not mounted on its base, which is delivered in its original packing.

TALL UNITS WITH REDUCED DEPTH:

we recommend fixing to the wall.

GRIP PROFILES:

Grip profiles are in aluminium

MINIMUM HEIGHT BETWEEN HOB AND HOOD UNITS:

The ideal height depends on the type of appliance; when assembling and installing, refer to the appliance manufacturer's instructions.

Caratteristiche del prodotto

/ Product Characteristics

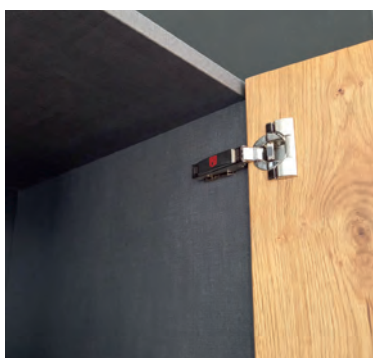

STRUTTURE:

La struttura dei mobili è realizzata con pannelli nobilitati di classe CARB2 (materiale atossico a basso contenuto di formaldeide), sono rivestiti con resine melaminiche tessute resistenti alle abrasioni e di facile pulizia. I piani top sono idrorepellenti (resistenti all'acqua).

CARCASES:

Unit carcasses are made of Class CARB2 laminated panels (low-formaldehyde, non-toxic material) and are finished with easy-to-clean, abrasion-resistant melamine resins. Tops are water-repellent (water resistant).

BORDI:

Tutti i bordi frontali a vista dei mobili sono in ABS a forte spessore 10 decimi di mm. con spigoli raggiati antitaglio. incollaggio poliuretanico.

EDGES:

All exposed front edges are in 8 tenths of a mm thick ABS and are rounded for added safety. Attached with polyurethane glue.

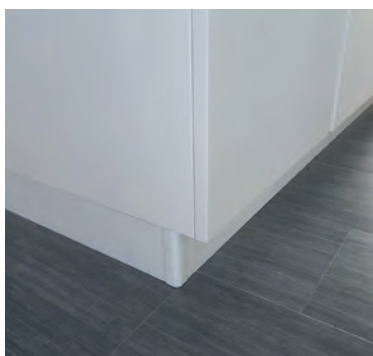

PIEDINI DI SOSTEGNO DI SERIE:

Le basi e le colonne sono corredate di piedini in materiale plastico ad alta resistenza sono del tipo ad innesto rapido e sono regolabili millimetricamente, per permettere il perfetto livellamento del mobile e della composizione. Sono disponibili nelle misure 10, 12, 15, 18.

STANDARD SUPPORT FEET:

Base and tall units come with high-resistance plastic feet available 12 cm. They are of quick-mount type with millimetric adjustment, ensuring perfect levelling of the individual units and of the entire furnishing combination. Feet are available, upon request in H. 6 and H. 15 cm.

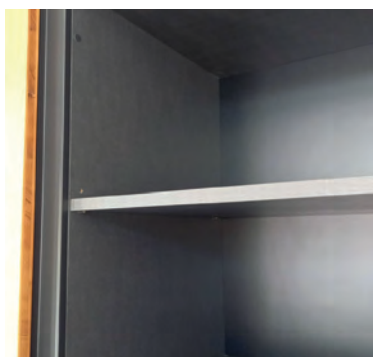

ZOCCOLI:

In materiale termoplastico rivestito in materiale termoplastico, tinta, alluminio o frassino, con guarnizione. In estrusione di alluminio H. 10 - 12 - 15 - 18.

PLINTHS:

In thermoplastic material coated with aluminium-finish melamine paper with a 12-15 cm high front profile. In aluminium extrusion H. 6 - 12 - 15.

BASI / PENSILI / COLONNE:

All'interno i fianchi sono provvisti di fori per consentire il posizionamento dei ripiani nelle diverse altezze.

BASE UNITS / WALL UNITS / TALL UNITS:

Complete with connecting screws for assembling. The sides feature holes on the inside, so that shelves can be fitted at various heights.

VUOTO SANITARIO:

Per facilitare il passaggio di eventuali tubi, cavi ecc.: tutte le basi e le colonne P. 59 cm di fianco hanno lo schienale rientrato di 6,2 cm.
I pensili e le colonne P. 34 cm di fianco hanno lo schienale rientrato di 1,4 cm.

PIPING RECESS:

All 57 cm deep base units and tall units have a 5.2 cm recessed back panel for pipes, cables, etc. 34 cm deep wall units and tall units have a 1.6 cm recessed back.

CATENA ALLUMINIO:

Tutte le nostre basi sono dotate di catena anteriore e posteriore in alluminio per permettere un montaggio più rapido ed efficace. fatta eccezione degli angoli a L e basi smussate.

ALUMINIUM BAR:

Our base units are fitted with a front and back aluminium bar for easier and quicker installation

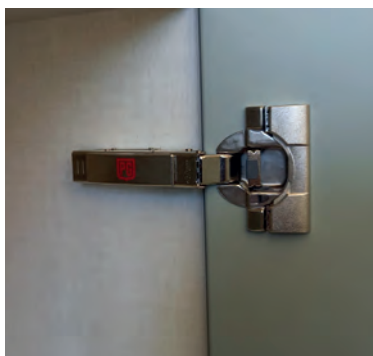

RIPIANI:

Sono ricavati da pannelli uguali alla scocca (sp. 18 mm) con finitura abbinata alla scocca tessuto e bordati ABS in tinta con bordo frontale sp. 10 decimi di mm. Sono fissati al mobile mediante perno a paletta.

SHELVES:

Shelves are obtained from the same panels that are used for the carcass (18 mm thick) with the same finish as the back panel and complete with ABS edges in the same colour as the front edge (8 tenths of a mm thick). They are attached by means of shelf brackets with a snap-on pin that keeps them attached to the carcass, in compliance with current safety norms.

CERNIERE:

Le ante sono dotate di cerniere rallentate a inserta con aggancio rapido a triplice regolazione con apertura a 110°, sono protette da un bagno galvanico che gli conferisce una illimitata resistenza agli attacchi dei vapori e di sostanze chimiche. Nei mobili pensili ad angolo, scolapiatti e con attrezzatura interna sono montate le cerniere con apertura a 180°.

HINGES:

Doors are fitted with 110 degree, triple-adjustment quick-mount hinges with a galvanic finish that makes them extremely resistant to vapours and chemical substances. Corner wall units, draining rack units and units with interior fittings are fitted with 180 degree hinges.

**COPRIFONDO IN ALLUMINIO PER LAVELLO:**

Il fondo della base lavello è rivestito da un coprifondo in alluminio anodizzato. Questa soluzione protegge il fondo dalla condensa del sifone, perdite d'acqua, corrosione dei detersivi; è facilmente asportabile e lavabile.

ALUMINIUM BOTTOM COVER FOR SINK BASE UNITS:

Sink base units are fitted with a base cover in anodized aluminium having the function of protecting the bottom panel from condensate, water leaks and detergents. The bottom cover is easily removable and washable.

**CASSETTI E CESTONI:**

I cassetti e i cestoni blum "merivox" colore carbon schwarz e sono dotati di estrazione totale e chiusura frenata. Presentano stabilità laterale e tolleranza di bilanciamento; il frontale del cassetto è regolabile in orizzontale e verticale e obliquo. Il frontale del cestone è regolabile in orizzontale, verticale e obliquo. Portata totale cassetto Kg. 35. A richiesta possono essere Push-Pull.

DRAWERS AND DEEP DRAWERS:

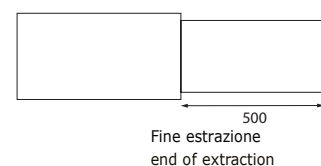

Blum "antaro" drawers and deep drawers have metal sides and back and are fitted with a full-extraction mechanism with bumper. Excellent side stability, with balancing system. Drawer fronts can be adjusted horizontally and vertically. Deep drawer fronts can be adjusted horizontally, vertically and obliquely. Each drawer has a total load bearing capacity of 30 kilos. 120 cm wide drawers have a load bearing capacity of 65 kilos.

**CESTONE MERIVOX:****ANTARO DEEP DRAWER:****CESTONE MERIVOX CON VETRO:****ANTARO DEEP DRAWER WITH GLASS:**

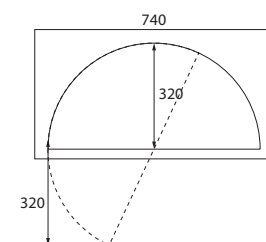

BASE ESTRAIBILE CON CESTO FRENATO
(portata cesto 40 kg)
Anche le basi estraibili con cesto frenato
sono ad estrazione totale

*PULL-OUT BASE UNIT WITH BRAKED
BASKET (deep drawer capacity 40 kg)
Base units come with full-extraction
pull-out baskets complete with bumper.*

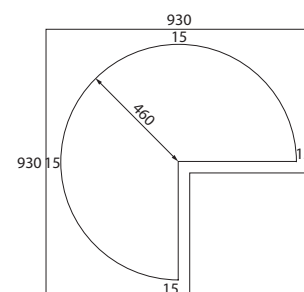

BASI ANGOLO CON CESTI MEZZE LUNE (portata cesto 15 kg cadauno)

*CORNER BASE UNITS WITH HALF-
MOON BASKETS (deep drawer
capacity 15 kg each)*

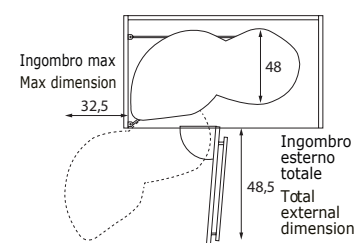

BASI ANGOLO 2 CESTI GIREVOLI
(portata max 27 kg per ripiano)

*CORNER BASE UNITS WITH 2 SWIVEL
BASKETS (deep drawer capacity 27 kg
for each shelf)*

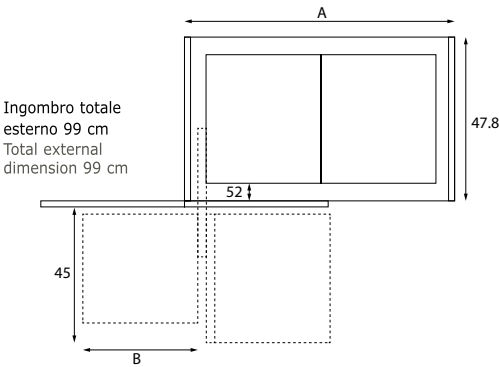

BASE ANGOLO "A FAGIOLO":
È un meccanismo che permette
l'estrazione completa di ciascun ripiano
separatamente. Portata totale per
singolo ripiano Kg. 25

*"BEAN-SHAPED" BASE UNIT
With this mechanism each shelf can
slide out separately. Each shelf has a
load bearing capacity of 20 kilos*

BASE ANGOLO CON MECCANISMO ESTRAIBILE:
È un meccanismo che permette l'accesso completo al vano interno della base tramite lo scorrimento dei 2 ripiani. Portata totale cesti Kg. 40

CORNER BASE UNIT WITH SLIDE-OUT MECHANISM:
This mechanism gives full access to the internal compartment of the base unit when the 2 shelves are pulled out. Total load bearing capacity of shelves 40 kilos

	45	60
A	900 mm	1050 mm
B	240 mm	390 mm

ATTACCAGLIE:
I pensili sono dotati di attacchi a parete regolabili dall'interno del mobile in due direzioni (altezza e profondità). Sono realizzati in abs con copri attaccaglie in metallo nichelato. Portata Kg. 130 a coppia.

HANGING BRACKETS:
The wall units feature hanging brackets that can be adjusted (heightwise and depthwise) inside the cabinet. They are made of ABS with a nickel-coated metal cover. Load bearing capacity: 130 kilos per pair.

SCOLAPIATTI CON VASCA RACCOGLIGOCCE:
Di serie vengono montate delle vasche raccogliogocce in acciaio.

DRAINING RACK WITH DRIP TRAY:
A steel drip tray is fitted as standard.

RIPIANI IN VETRO:
disponibili i ripiani che sono in cristallo di spessore 6 mm.
e vengono fissati tramite reggipiani dotati di gomma.

GLASS SHELVES:
All our display units come with 8 mm thick glass shelves complete with shelf brackets with a rubber gasket that stops the shelf from tilting over.

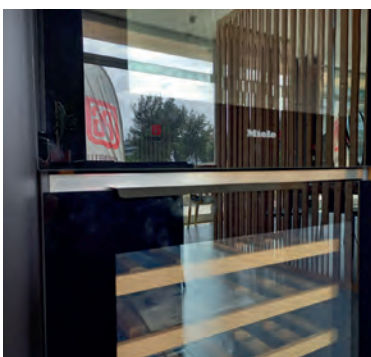

PUSH PULL (OPTIONAL):
È possibile utilizzare questo meccanismo in optional per aprire le ante facendo una leggera pressione sulle ante stesse

PUSH PULL MECHANISM (OPTIONAL ACCESSORY):
This mechanism, whereby you slightly push the door to open it, can be fitted as an optional accessory.

FERRAMENTA BASE SOSPESA

IRONWARE FOR SUSPENDED BASE UNIT

PROTEZIONE INOX PER FORNO:
Si tratta di una protezione inox che si incastra sulla tramezza sopra il forno e che lo protegge dal calore o vapore presente nel forno stesso.

STAINLESS STEEL COVER FOR OVENS:
It is fitted above the oven and has the function of protecting the other units from heat and steam coming from the oven.

FONDO PER FRIGO CON APERTURE DI AREAZIONE:

Per permettere al frigo il ricircolo dell'aria senza fare fori aggiuntivi nello zoccolo, per una capacità di aereazione utile di 203 cm³.

FRIDGE BOTTOM WITH VENTILATION HOLES:

It ensures air circulation, so that there is no need to cut additional holes on the plinth, for a useful aeration capacity of 203 cm³.

ACCESSORIO PER SAGOMATURA ZOCCOLO LAVASTOVIGLIE

Permette di rifinire il taglio dello zoccolo se ne necessita il modello della lavastoviglie, il colore è grigio(a richiesta laccato come zoccolo).

DISHWASHER SHEET

Used to protect slide-in base unit side panels from humidity and steam.

COLONNE ATTREZZATA "SPACE TOWER" CON CASSETTI E CESTI INTERNI ESTRAIBILI

Cerniere 180°

EQUIPPED TALL UNITS WITH PULL-OUT INTERNAL DRAWERS AND BASKETS

180° hinges

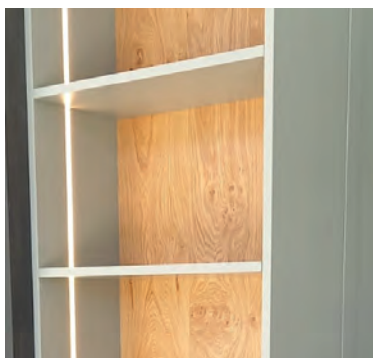

PANORAMICA MERIVOBX:
Kit vetro optional completo di kit divisori

PANORAMICA ANTARO:
Optional glass kit complete with partition kit

COLONNA CON CESTO ESTRAIBILE
(portata max per cesto 12,5 kg.)
Con apertura a 135° cesto ad estrazione totale.
Con apertura a 90° cesto estraibile 200 mm.

TALL UNIT WITH PULL-OUT BASKET
(max capacity for each basket 12,5 kg.)
With 135° opening for full extraction basket .
With 90° opening for pull-out basket 200 mm.

PARTICOLARE PER LUCE KALEO (colonna)

DETAIL FOR KALEO LIGHT (tall unit)

LED (OPTIONAL) "LUMEN"
LED da incasso su fondo pensile senza interruttore

*LED MALINDI (OPTIONAL) EDC
Built-in led for wall unit's bottom without switch*

FONDO PENSILE CON PRESA MANIGLIA A SCOMPARSA:
Si tratta di una gola in alluminio per apertura pensile senza maniglie

*WALL UNIT BOTTOM WITH CONCEALED HANDLE:
An aluminium grip profile for wall unit opening without handles*

Pulizia e manutenzione del prodotto

/ Product cleaning and maintenance

PARTI IN LEGNO

Utilizzare un panno morbido inumidito da alcool diluito con molta acqua o normali prodotti per la pulizia dei vetri o detergenti neutri (consigliato prodotto PG Pasquinelli "Kit pulizia"). asciugare subito con un panno morbido e asciutto.

NON UTILIZZARE: Prodotti contenenti acetone, trielina, cloro, ammoniaca, diluenti, detersivi abrasivi, cera o lucidi per mobili. Pulire subito prodotti come vino e acidi.

PARTI LACCATE

Si consiglia l'uso di un panno morbido inumidito da alcool diluito con molta acqua o detergenti neutri (consigliato prodotto PG Pasquinelli "kit pulizia"). Asciugare subito con un panno morbido asciutto non abrasivo.

NON UTILIZZARE: Prodotti e detersivi abrasivi, acetone, trielina, ammoniaca, cera o lucidi per mobili. Pulire subito prodotti come vino e acidi.

PARTI IN VETRO E ALLUMINIO

Si consiglia, per le parti in alluminio, l'uso di un panno umido. Per le parti in vetro utilizzare prodotti specifici per la pulizia dei vetri e asciugare bene.

NON UTILIZZARE: Pagliette, spugne, prodotti abrasivi o alcool.

PARTI IN ACCIAIO INOX

Utilizzare acqua calda e detersivi normalmente in uso ed asciugare con un panno morbido o preferibilmente con pelle di daino. Sono inoltre disponibili in commercio prodotti specifici per la pulizia degli acciai inox che vengono utilizzati avendo l'accortezza di pulire sempre nel senso della satinatura. Eventuali depositi di calcare potranno essere rimossi con aceto o con prodotti anticalcare.

NON UTILIZZARE: Prodotti e detersivi abrasivi, detergenti in polvere, prodotti contenenti cloro, candeggina o acido muriatico.

PARTI IN LAMINATO

Si consiglia l'uso di un panno morbido inumidito da alcool diluito con molta acqua o detergenti neutri (consigliato "Kit pulizia").

Asciugare con un panno morbido asciutto.

NON UTILIZZARE: Prodotti abrasivi, acetone o contenenti cloro. Pulire subito le macchie di calcare.

PIANI IN QUARZITE E SILICERESINA

Per la pulizia quotidiana è sufficiente passare un panno morbido, inumidito d'acqua e alcool. Sui piani in quarzite le macchie tendono a stratificarsi: in questo caso utilizzare i prodotti per la pulizia dei marmi e graniti che si possono reperire presso i negozi specializzati.

PIANI IN LAMINATO

I piani in laminato vanno puliti con panno morbido e asciutto o semi asciutto con acqua e alcool o detergente neutro (consigliato prodotto PG "Kit pulizia"), tenere lontano da fonti di calore e non tenere il piano a lungo bagnato.

PIANI IN GRESS

I piani in gress sono di facile pulizia, pulire con prodotti della pulizia della casa come detergenti neutri, acqua e alcool (consigliato prodotto PG "Kit pulizia").

Molto resistenti al graffio e alla macchia, e anti batterici.

PIANI IN STRATIFICATO (HPL)

Per la pulizia quotidiana è consigliato l'utilizzo di detergenti neutri. In caso di calcare ostinato è consentito l'utilizzo di aceto da cucina nella parte interessata lasciandolo agire per massimo 5 minuti e risciacquando abbondantemente subito dopo. Se il calcare persiste ripetere l'operazione.

Da evitare l'utilizzo di prodotti abrasivi o pagliette che possono danneggiare la superficie. Non usare prodotti che contengano solventi o paste abrasive.

WOODEN PARTS

Use a soft cloth dampened with alcohol diluted with plenty of water or standard glass detergents. Wipe dry immediately with a soft dry cloth.

DO NOT USE: Products containing acetone, trichloroethylene, chlorine, ammonia, diluents, abrasive detergents, wax or furniture polish. remove wine and acid stains immediately.

LACQUERED PARTS

Use preferably a cloth dampened with alcohol diluted with plenty of water. Wipe dry immediately with a dry, non-abrasive cloth. The first time you wipe the furniture, the cloth you are using may colour up slightly because of the presence of paint residues from the drying process. Once wiped away, these residues will not appear again.

DO NOT USE: Abrasive products or detergents, acetone, trichloroethylene, ammonia, wax or furniture polish. Remove wine and acid stains immediately.

ALUMINIUM AND GLASS PARTS

Aluminium parts should be cleaned with a damp cloth. Glass parts should be cleaned with specific detergents and left to dry well.

DO NOT USE: Scouring pads, sponges, abrasive products or alcohol.

STAINLESS STEEL PARTS

Use warm water and common detergents. Wipe dry with a soft cloth or preferably a suede cloth. you can also use commercially available detergents specific for stainless steel. Be sure to follow the satin finish lines. Limescale deposits can be removed with vinegar or a descaler. Pay special attention when removing the adhesive protective polyethylene film from the doors.

DO NOT USE: abrasive products and detergents, powder detergents, products containing chlorine, bleach or muriatic acid.

LAMINATE PARTS

Use preferably a cloth dampened with alcohol diluted with plenty of water. Wipe dry immediately with a soft dry cloth.

DO NOT USE: Abrasive products, acetone or products containing chlorine. Remove limescale stains immediately.

SILICA RESIN AND QUARTZITE PARTS

Can be cleaned daily with a soft cloth dampened with water and alcohol. Stains tend to build up on quartzite tops: use detergents suitable for marble or granite available from specialized shops.

HANEX TOPS

Clean regularly with a cloth soaked with soap or any other common household detergent. In case of superficial scratches clean thoroughly with a kitchen sponge soaked with water and some mild detergent. Remember: always resort to the simplest solution! In case of stubborn scratches or stains wipe delicately in a circular motion with an abrasive sponge and a mild detergent (for example Cif). If the scratch is deep please refer to a specialized Hanex laboratory.

Always protect your Hanex top from sources of direct heat (pots and pans, irons, fryers, toasters, etc.), do not place pots and pans straight from the cooker onto the worktop.

OKITE TOPS

Okite requires very little maintenance as it does not absorb liquids, smells or even the most common cooking fats. To clean just use a damp cloth; the usual daily cleaning products will do to clean the surface.

Fully recyclable, non-toxic product.

LAMINATE TOPS

For daily cleaning, we recommend the use of neutral detergents. Eliminate any hard lime deposits with vinegar, left in place for five minutes at the most, and then thoroughly rinsed immediately. If the deposit is not entirely eliminated, repeat the operation.

Do not use abrasive products or steel wool pads which may damage the surface.

Do not use products containing solvents or abrasive creams.

PIANI IN FENIX

Si consiglia l'uso di panno morbido inumidito da alcool diluito con molta acqua. Asciugare con panno morbido asciutto.

NON UTILIZZARE: prodotti abrasivi, acetone o contenenti cloro. Pulire subito le macchie di calcare.

FENIX TOPS

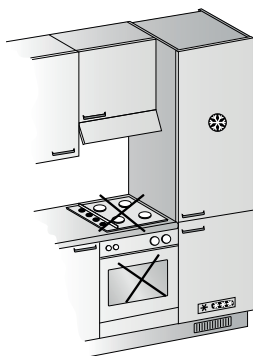

Use preferably a cloth dampened with alcohol diluted with plenty of water. Wipe dry immediately with a soft dry cloth.

DO NOT USE: abrasive products, acetone or products containing chlorine. Remove limescale stains immediately.

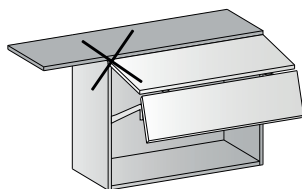

Consigli per la progettazione

/ Design tips

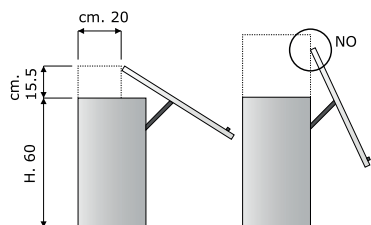

Non posizionare una fonte di calore (piano cottura – forno) vicino ad una colonna frigorifero. Il calore può danneggiare la colonna e creare il malfunzionamento dell'elettrodomestico).

Do not install a heat source (hob, oven) next to a fridge unit as the heat may damage the unit and cause the fridge to malfunction.

Nelle composizioni con pensili a pacchetto o traslati non si possono montare le mensole di collegamento.

Wall unit combinations with double folding or swing-out doors cannot be finished with a connecting shelf.

PENSILI ANTA TRASLATA

Sono dotati di braccetto snodato che rende l'apertura particolarmente dolce. Una volta aperta, l'anta mantiene qualsiasi posizione.

ATTENZIONE

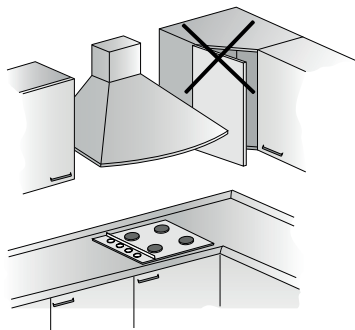

I pensili NON possono essere abbinati a soprapensili.

WALL UNITS WITH SWING-OUT DOOR

Complete with an articulated bracket that provides for soft opening of the front. The front can be held open in any position.

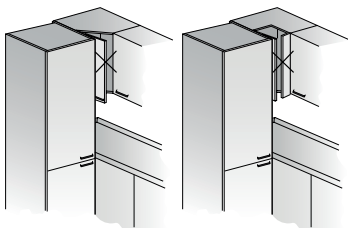

REMEMBER

Top units CANNOT be fitted on top of wall units.

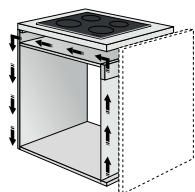

Non posizionare una cappa d'arredamento vicino ad un pensile angolo (l'anta non si apre).

Do not fit a designer hood next to a corner wall unit (the door won't open).

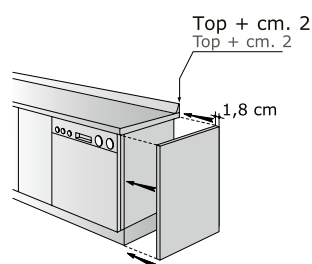

Non posizionare un pensile angolo vicino ad una colonna (l'anta non si apre).

Do not fit a corner wall unit next to a tall unit (the door won't open).

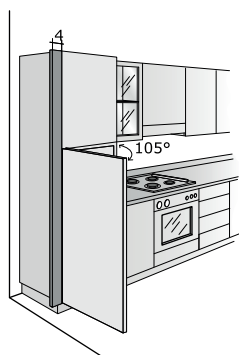

Per assicurare il corretto funzionamento del piano a induzione si deve prevedere una ventilazione dal retro della base, spazio minimo 6 cm sotto tra piano cottura e forno o altro, ed eventualmente il forno dovrà avere la ventola di raffreddamento.

The induction hob must have a fan behind the base with minimum 6cm clearance between the cooking hob and oven or other appliance. If an oven is involved, it must have a cooling fan.

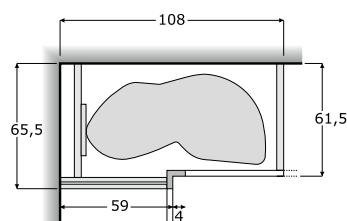

Per elettrodomestico sottopiano a fine composizione è necessario aggiungere un fianco di finitura (sp. 2 cm) per sostenere il piano e per nascondere l'elettrodomestico. E' consigliabile aggiungere un fianco finale pensile per ottenere la stessa lunghezza degli elementi base e pensile.

If you fit an electrical appliance under the top add a finishing side (2-cm thick) to support the top and conceal the appliance. We suggest adding a finishing side panel to the base unit in order to obtain the same length of the base and wall unit combinations.

Se una colonna con frigorifero è posta contro un muro è necessario aggiungere un riempitivo di 4 cm per permettere l'apertura corretta dell'anta e la fuoriuscita dei cassetti interni.

If a tall fridge unit is fitted next to a wall it is necessary to add a 4-cm thick filler so that the doors and the internal drawers can be opened completely.

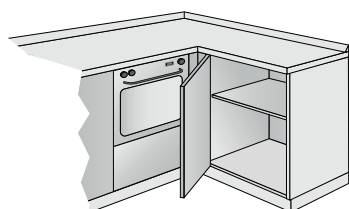

BASI ANGOLO "A FAGIOLO"

Per una corretta apertura dell'anta e del meccanismo è consigliato prevedere un montante maggiorato di almeno 5 cm lato anta.

"BEAN-SHAPED" CORNER BASE UNITS

For a correct opening of the door and of the mechanism fit a 5 cm thick advised on the door side.

In caso di accosto del forno alla base angolo valutare la sporgenza della maniglia del forno.

In case of oven base unit next to corner base unit consider the projection of the oven's handle.

Aperture ante pensili

/ Opening system for wall units

Foto 2 / Photo 2

Foto 3 / Photo 3

Foto 4 / Photo 4

PENSILI VASISTAS

Il sistema aventos HK della Blum è un meccanismo con dimensioni e potenza della base forza concepite per le ante vasistas standard più piccole. Anche per le ante vasistas standard più grandi c'è la possibilità di un uso altamente confortevole: grazie a Blumotion integrato, il sistema aventos HK si apre facilmente e si chiude in modo dolce e silenzioso. Grazie all'arresto progressivo, l'anta vasistas si ferma in qualsiasi posizione.

WALL UNITS WITH FLAP DOORS

The Blum Aventos HK mechanism is designed and dimensioned for standard smaller flap doors but it can also be used with larger standard flap doors. Thanks to the built-in Blumotion mechanism, the Aventos HK system opens and closes easily and is totally noiseless. In addition, the door can be held open in any position.

PENSILI A PACCHETTO

Il sistema HF della Blum è un meccanismo che permette all'anta a pacchetto di aprirsi facilmente, di essere bloccata in qualsiasi posizione e chiudersi in modo dolce e silenzioso.

WALL UNITS WITH DOUBLE FOLDING DOORS

With the Blum HF mechanism, double folding doors can be opened easily. In addition they can be held open in any position and closed gently and noiselessly.

PENSILI CON APERTURA TRASLATA

Il sistema HS della Blum permette all'anta traslata un'apertura verticale obliqua dell'anta per un totale e facile accesso al vano. Tutti i nostri pensili traslati sono provvisti del meccanismo Blum che permette una chiusura ammortizzata dell'anta e alla stessa di essere bloccata in ogni posizione di apertura.

WALL UNITS WITH SWING-OUT DOORS

The Blum HS system is designed for vertical swing-out doors. All our wall units with swing-out doors come with this special mechanism, which enables to close the door slowly and to hold it open in any position.

PENSILI CON APERTURA VERTICALE

Il sistema HL della Blum permette all'anta un'apertura verticale per un totale e facile accesso al vano. Tutti i nostri pensili sono provvisti del meccanismo Blum che permette una chiusura ammortizzata dell'anta e alla stessa di essere bloccata in ogni posizione di apertura.

WALL UNITS WITH VERTICAL OPENING

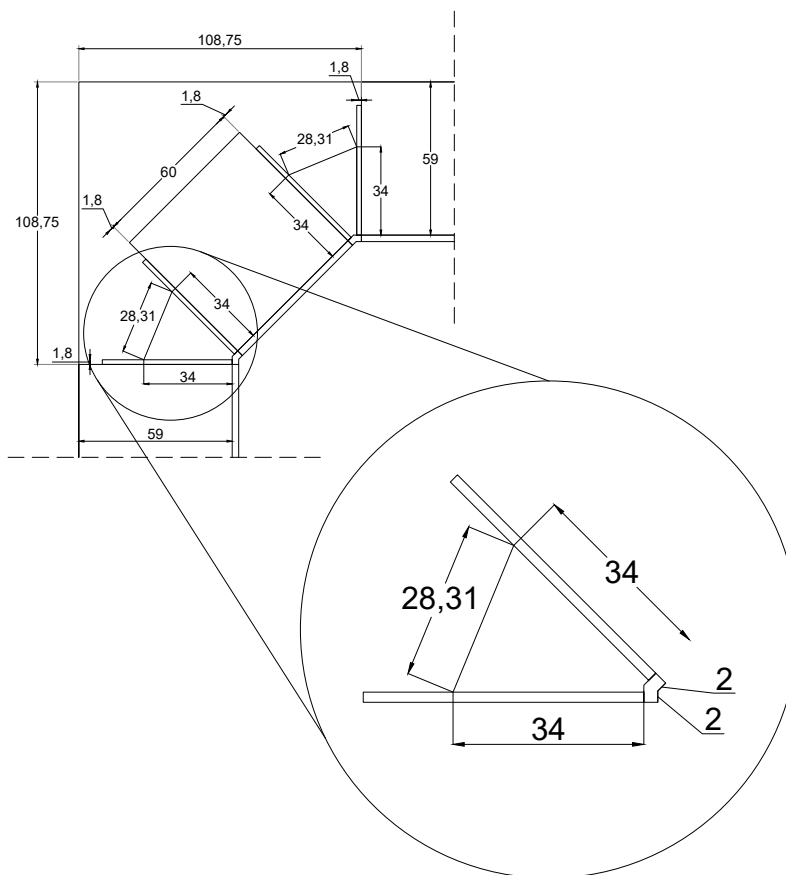

THE Blum HL system is designed for vertical opening. All our wall units come with Blum mechanism, which enables to close the door slowly and to hold it open in any position.

BASE ANGOLO PROF .63

La nuova base angolo con montante maggiorato 6x6 permette di gestire composizioni con cassettiere o elementi estraibili vicino all'angolo

CORNER BASE UNIT, 63 CM DEEP

The new corner base unit with a 6x6 cm upright is suitable for combinations with drawer cabinets or base units with slide-out mechanisms next to the corner

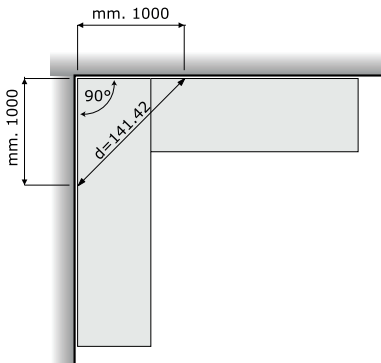

Angoli fuori squadra

/ Out of square corners

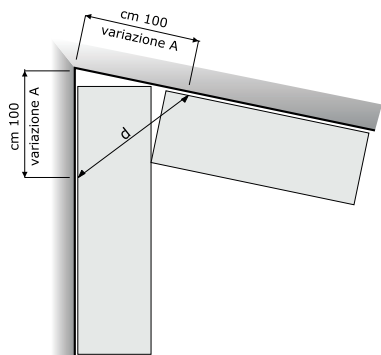

Nel corso dei rilevamenti delle dimensioni della stanza, controllare che la diagonale "d" misurata a cm. 100 dall'angolo sia di cm. 141,42. In caso contrario l'angolo non è a 90°, dunque fuori squadra. Riportiamo qui sotto una tabella con i valori relativi ad angoli minori o maggiori di 90°.

/ When measuring the size of the room check that diagonal "d" measured 100 cm away from the corner is 141.42 cm. If this is not the case, the corner is out of square (not a 90 degree corner). Please refer to the table below for corners smaller or greater than 90 degrees.

ANGOLO RETTO A 90° – DIAGONALE = 141,42
90° RIGHT-ANGLED CORNER – DIAGONAL = 141,42

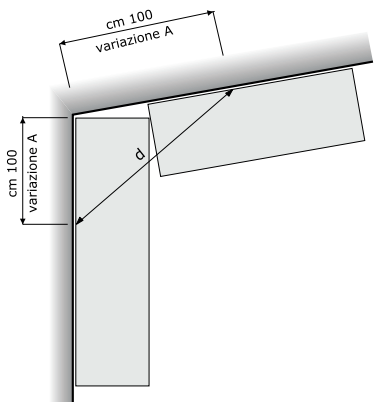

d cm.	angolo /corner	A
141.42	90.00	0

ANGOLO MINORE DI 90° – DIAGONALE (D) < CM .141,42
La lunghezza della stanza misurata sulla parete è maggiore di quella misurata a 60 cm. dalla stessa. La differenza è rappresentata da "A"

CORNER SMALLER THAN 90°– DIAGONAL (D) < 141.42
The length of the room measured along the wall is greater than the length measured 60 cm away from the wall. The difference is given by "A"

d cm.	angolo /corner	A
141.00	89.65	0.4
140.50	89.26	0.8
140.00	88.85	1.2

Electric power cable provided by the manufacturer of the household appliance

 CAVO ELETTRICO DI PROLUNGA (A NORMA)
Extension lead (complies with standard)

ATTENZIONE

È consigliabile prevedere un numero di prese di corrente pari al numero degli elettrodomestici e di amperaggio tale da sopportare il carico dell'elettrodomestico in funzione.

Le norme di sicurezza prevedono che le prese a spina per l'alimentazione di apparecchiature di potenza superiore ai 1000 W debbano essere corredate di interruttore con valvole unipolari per permettere l'inserimento ed il disinserimento della spina a circuito aperto.

Il rubinetto del gas deve essere posizionato in un luogo di facile accesso (preferibilmente all'interno della base lavello).

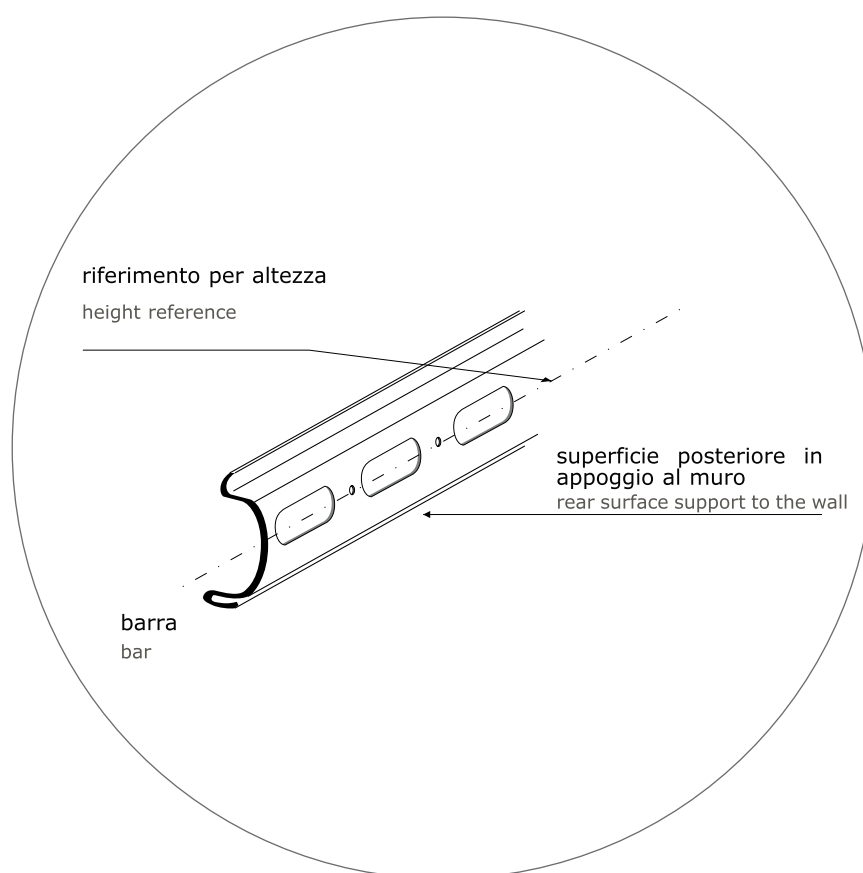

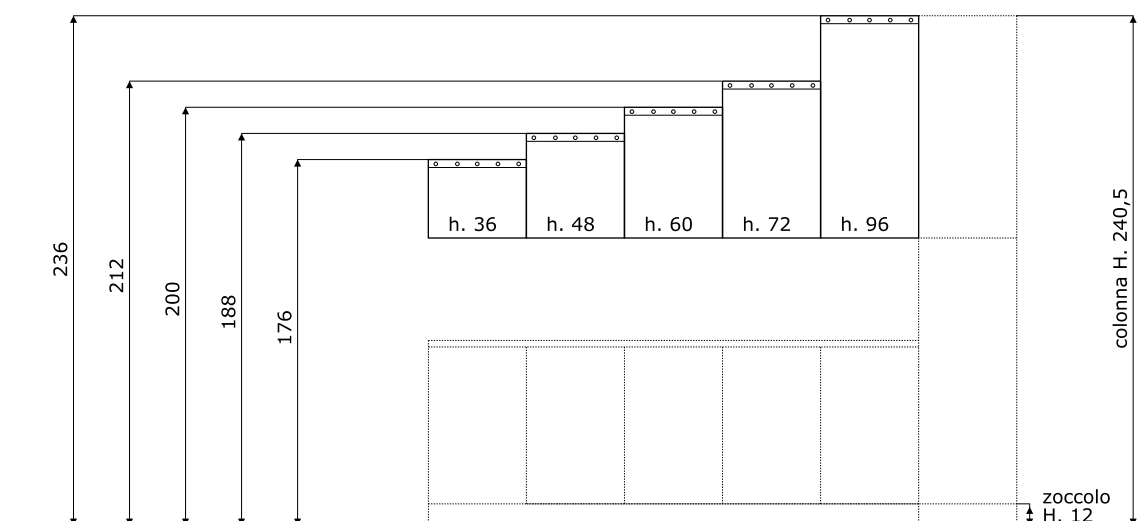

REMEMBER

We recommend that you fit as many sockets as the electric appliances, of suitable amperage.

Safety standards establish that plugs for appliances with power higher than 1000 W must be fitted with a unipolar valve switch, in order to enable and disable the plug with opencircuit. The gas cock must be placed in an easy-to-reach position (preferably inside the sink base unit).

Schema di posizionamento barra per fissaggio pensili

/ Position of wall unit mounting bar

Servo – drive per aventos (optional)

/ Servo – drive for aventos (optional)

SERVO-DRIVE PER AVENTOS è un meccanismo elettrificato che viene utilizzato per aprire le ante dei pensili pacchetto (vedi foto 2 pag. 19), dei pensili traslati, pensili vasistas (vedi foto 3 pag. 19), kit cestone lavello e delle basi cassetto e cestone. Il meccanismo è opzionale e può essere montato facilmente su ogni base o pensile predisposto, in modo tale che l'apertura delle ante e dei cassetti avvenga esercitando una leggera pressione sul frontale.

Grazie alla facilità del montaggio e nella messa in funzione, l'installazione risulta estremamente facile.

È possibile utilizzare un unico trasformatore per tutti i meccanismi della vostra cucina, ma è possibile sincronizzare e azionare contemporaneamente solo fino a 3 unità motrici.

SERVO-DRIVE FOR AVENTOS is an electric mechanism that is used for opening double folding doors for wall units (see photo 2 on page 19), slide-up doors for wall units, wall units (see photo 3 on page 19), kit for sink deep drawer and drawers/deep drawers for base units. This mechanism is an optional accessory and can be easily mounted on suitable base or wall units so that the doors/drawers open easily as soon as they are slightly pressed.

This mechanism is extremely easy to install and operate.

A single transformer can be used for all mechanisms in your kitchen. Up to 3 servo drives can be synchronized and controlled at the same time.

	TALL UNIT 134,7														
				maggiorazione per interno finitura ante surcharge for inside in the same finish as the doors											
			Note / notes												

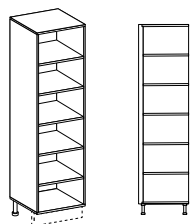

I prezzi si riferiscono alla finitura per fascia di prezzo dei fianchi esterni e delle porte – i fianchi interni ed il cielo in finitura scocca, bianca o grigia.
Per l'interno (fianchi interni e cielo) in finitura, va aggiunta la "maggiorazione per interno in finitura"

Prices refer to the finish by price range of external side panels and doors – Internal side panels and blind in the same finish as the carcase, white or grey.
For the inside (internal side panels and ceiling) in the same finish, add the "surcharge for inside in the same finish"
